NO. 38

We Oppose the Amendments

The people of Kentucky are being asked to vote for two amendments to the constitution. One is to prevent the voters from electing the State Superintendent of Instruction, and the other is to allow the officers not so elected by the people to spend 10 per cent of the school funds for purposes other than paying the teachers. They both need killing instantly. The Times believes in the people electing every officer of the land, and further believes in the money collected for one purpose being spent for that purpose only.

A Road Badly Needed

The road from Clay City to Furnace mountain up Hardwick's creek is in better condition than ever before. The people have gone to work and made this road this summer with the help of the county. Henry Tipton gave the right of way along his place for quite a distance where the road was in the creek. Now the road is up on the bank. This is a great improvement. 'Tis true it took some of the best land Mr. Tipton had, but he willingly gave it up that the county might have a good road there, and it has.

Secret Wedding

Miss Fannie King and Mr. E. D. Holmes, both of this city, surprised their many friends Tuesday of last week by announcing their wedding which took place March 12th, 1921. Mrs. Holmes is a daughter of Mr. and Mrs. Joe King, while Mr. Holmes is a veteran of the world war.

Cold Winter Predicted

Weather prognosticators are predicting a cold winter. We are all guessing it that way because it has been so warm, both this summer and last winter. We believe the suggestion or prediction and accordingly shall prepare early for its advent.

Box Rent Raised at Postoffice

Postmaster Mrs. Carrie Groves has been authorized to raise the box rent at the postoffice. Some as much as 33½ per cent. They must be feeling the pinch at Washington as well as at Clay City and other places.

Another Bridge in Sight

A representative of the Champion Bridge Company, of Wilmington, Ohio, is in town looking to a contract for a bridge across the river on the Irvine road with Clay City, and the indications are that the bridge will be a go. The Times is for it.

Fall Work Begins

Corn cutting and sorghum making have begun with the farmers. Both crops are fair, with the sorghum crop up to possibly one hundred per cent of normal.

New Scales

Joe Mount is installing a pair of new wagon and stock scales at his place of business. These, with Eaton & McGuire's scales, make two pair for Clay City.

County Fair Friday and Saturday

The Powell County Agricultural and School Fair will be held at Stanton Friday and Saturday of this week. A splendid list of prizes have been offered. You should attend, if possible. Nothing is better to stimulate improvement of stock and poultry, preserving and canning more than a good fair in the county once a year. It is a fair for the whole county; costs you nothing to enter your exhibits and nothing to enter yourself. Everything is free except the premiums you must win on merit.

Road Work Progressing

Work on the Powell part of the new Irvine road is progressing rapidly as can be expected, considering the work is all being done by donation of the people. The faster the subscriptions roll in the faster the work will proceed. The people will not be drummed nor bored for funds, but voluntary subscriptions of from one to twenty-five dollars are accepted any day. Send or mail yours in today.

Mare Shot

Last Monday Coleman Portwood, of this city had a valuable mare shot and badly crippled from a stray bullet of a .22 rifle while grazing in his pasture at home.

Boys and sportsmen should be more cautious how they indulge in this kind of sport, or it is too dangerous to be displayed in or around town.

Unemployed Labor

Labor reports show there were 447,000 unemployed factory workers in June for New York State. In Illinois the number was 203,000; in Ohio, 204,000; in Pennsylvania, 371,000; in Michigan, 108,000; in Wisconsin, 78,000; in Indiana, 79,000; in Minnesota, 37,000, and Iowa, 25,000, says Sugarman's Indicator.

Cold Checks Increasing

Several cold checks have been circulating recently. It behooves all persons to take no chances on checks these days as money matters are more exacting than formerly, and men cannot get checks to go many times until they put up the cash at the bank.

Fall Fruits

Fall crops of native fruit shined better at the hands of the spring freezes than did the cultivated varieties. There is a full crop of persimmons, haws and grapes. They are all good and abundant on some of even our neglected farms.

Fiscal Court Meets

The Powell Fiscal court met at Stanton Friday and passed on some important matters. The regular October term is Tuesday week.

Subscribe to the Powell-Estill Donation road fund, if you wish to boost Clay City and see her grow.

Items of Interest Drawn From

Powell County at Large

Having moved to Powell county in February, 1921, I have made a very close study of Powell county. I find it to be one among the greatest counties in the state of Kentucky.

It has level river valleys and rolling hills, and as fine and accommodating people as I ever saw anywhere.

I can rightly "boost" Stanton, for it is a fine little town. Stanton is the best town morally in the mountains of Kentucky I am sure. I have been in lots of towns and I never have been in one that was ahead of it for fine, good and congenial people.

I like the appearance of Clay City fine although I have not had the opportunity to know as much about Clay City as I do Stanton.

During my stay in your country I have been in most of your country school districts, and find them to be very fine people. Of the thirty-three "Free Schools" in Powell county, all of them have Teachers that have the cause of Education at heart, I am glad to say that on investigation I have found that more of them are Christians than any other county I have done work in. I am hoping that all of the others are soon converted.

The County Superintendent recently told me that she had had but one resignation this year. (Teachers stick to your bush.) I have visited several of the "Free Schools," and find that they are well taught.

The churches are all well attended, and the folks seem to be living their religion. The Sunday schools are all reporting good attendance, about sixty per cent of the census where there is any Sunday school.

Powell county is better off than any other county in Kentucky in Sunday schools. Out of thirty-three school districts there are nineteen Sunday schools, one half, but this is very poor average seemingly, but better than any other county in the state of Kentucky.

If there is any of the other districts that would like to have a Sunday school, and are ready to help, please write to Andrew Hollars, Stanton Ky., (Missionary American Sunday School Union,) who is ready and willing to do all he can to aid and assist you in getting one started.

There are three schools in Powell county that I wish to make special mention of; Rosslyn, Union; Slade and Vaughn's Mill, Union. All of the places named have good Sunday schools, Rosslyn being the only one out of town in Powell county that is an evergreen school. I am hoping and trusting that others take their example.

The three above named places have "Training Classes" that are doing a fine work, Rosslyn 12 members, Slade, 18 members, Vaughn's Mill, 22 members. I hope that every one of them will complete the course and get their diplomas which I am sure they will be proud of. I shall later list the number that receive di-

Instructions on Diphtheria

The prevalence and dangers of diphtheria in Kentucky are emphasized in a bulletin issued by Dr. A. T. McCormack, State Health officer. The bulletin was issued at this time, according to Dr. McCormack, because the first epidemic of the year already has commenced its ravages in Menifee county.

"There are certain facts," Dr. McCormack said, "which parents should recall now that diphtheria has appeared for the first time this season in epidemic form in Kentucky. One half of the deaths from the disease, to which children particularly are subject, occur every year within three months after schools reopen."

"These deaths are absolutely needless. If, after the disease has been acquired, enough antitoxin is administered to the child suffering within the first three days of the disease's course, the sufferer's life will be saved every time. The thing for parents to do is to send each child which has a sore throat to a doctor immediately and, where he has had the disease, not to permit him to return to school until he is shown by a laboratory analysis to be completely cured."

"Last year for the first time since vital statistics in Kentucky have been kept the death rate from diphtheria increased. This did not alarm us especially as the increase in this State conformed to an increase all over the United States, but the State Board of Health is anxious to keep the disease well in hand this year."

Dr. C. H. Voorhies, of Lexington, has been sent by the State

board of Menifee county to fight diphtheria there. Three deaths already have been reported and there are approximately thirty cases of the disease in the county.

Help Those Who Help Themselves

The road from Clay City to Irvine has just been regarded the worst of the main roads leading from Clay City. The people for the first five miles out have been persistent agitators for a good road to Clay City. Three miles of this road is in Powell and two miles in Estill county. These people have never demanded, but only asked help. To date they have subscribed and paid \$4,254.00 on this road and the bridge across the river, as follows:

On Bridge.....	\$1,122.00
On cutting down Hill three years ago.....	1,632.70
On Estill county road this summer.....	1,500.00

Total 4,254.70

Estill is completing its two miles of road, but Powell is not aiding in the construction of its three miles, but the people are, and work is progressing. Don't you wish to help? Then mail this subscription blank today with any amount from \$1 to \$25 to Clay City Times and proper credit will be given through these columns.

I desire to aid the Powell-Estill Road Donation Fund, and am thus enclosing..... Dollars \$..... to forward the work now begun on this road.
